INTRODUCTION

[15th International Conference on clinical & Medical Case Reports](#) during "April 16-17, 2020 in Amsterdam, Netherlands aims to bring together leading academic scientists, researchers, specialists and research scholars to exchange and share their experiences and research results on all aspects of Clinical Case Reports. It also provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss trends, the most recent innovations, and concerns as well as practical challenges encountered and solutions adopted in the fields of Clinical Case Reports.

[Case Reports 2020](#) aims are to engage new audiences to participate in activities on the day Of course we also want to reach existing followers of Medical Case reports on social media accounts, and to expand the global reach. Finally, this will be a great opportunity to explore as new science communication tool. We are now looking for people to contribute, and to help us make cases 'go viral'!

Market Analysis:

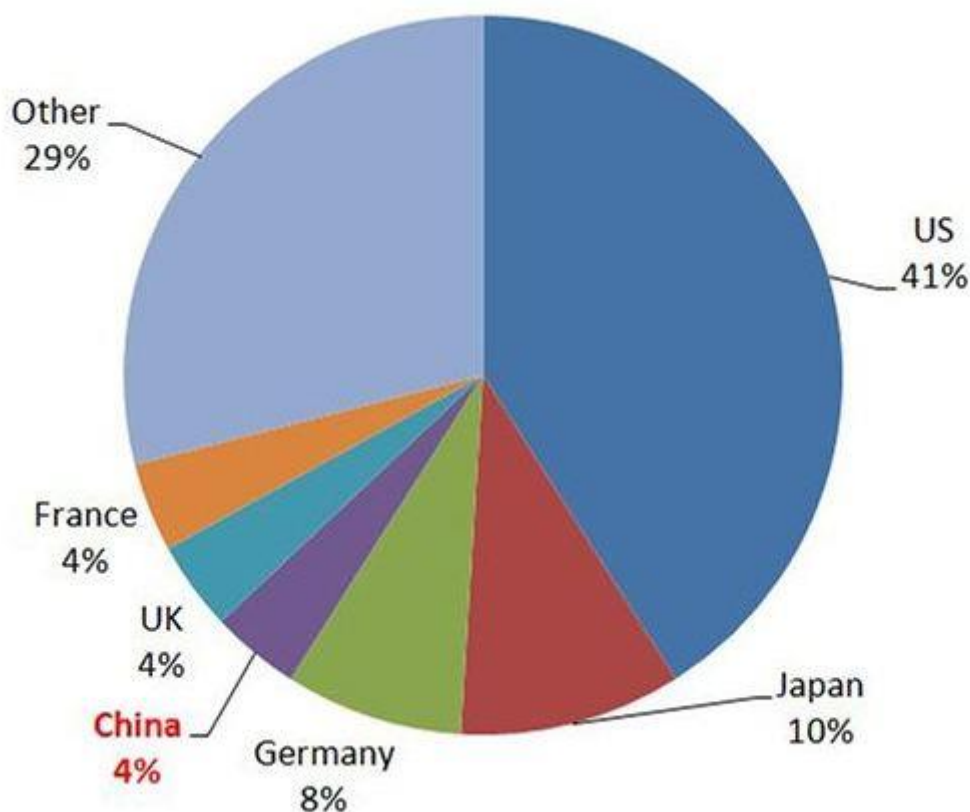

In 2020, the clinical Case Reports are primarily focussed on important topics such as Cardiology, Neurology, Anaesthesiology, Dentistry, Gastroenterology, Dermatology, Oncology & Cancer , Phycology, Diabetics, Proctology,

The French market of clinical and medical devices is the second largest market in Europe and the fifth largest in market the world. In 2014, the French market was valued at US\$14.5 billion, and growth is expected to be moderate, reaching US\$16.5 billion by 2019.

The manufacturers in France control the majority of the domestic medical device industry, but the currently market is relying on the import from the markets across the world. Medical device imports accounted for about \$3.8 billion in 2015, more than 50% of the overall market.

The medical device packaging market in Europe is expected to grow at a CAGR of more than 7% by 2018-2022.

There were approximately 1.8 million physicians working in the Europe. The overall numbers of physicians which are practising in Europe were recorded in the largest Europe Member States were: Germany (333 thousand), followed by Italy (236 thousand), France (206 thousand), the United Kingdom (181 thousand) and Spain (177 thousand). These five States all together accounts' for about two thirds, which is about 64 % of the total number of the physicians practising in the Europe, above their combined 63 % share of the EU's population.

We also received active participation from various scientists, researchers, students and leaders from the field of Euro Clinical Case Reports who made this event a successful knowledge exchange and networking destination for the experts for our Past conference which was held in the early months of 2019 in Amsterdam, Netherlands.

"Once again it is an honour to welcome you all to the upcoming [15th International Conference on clinical & Medical Case Reports](#) during "**April 16-17, 2020 in Amsterdam, Netherlands.**"
