**2020 Conference Announcement**

We are pleased to welcome you to the "21<sup>st</sup> International Meet on Medicinal Chemistry & Drug Design" after the successful completion of the series of [Medicinal Chemistry](#) Conferences. The congress is scheduled to take place in the beautiful city of London, UK on August 17-18, 2020. This Medicinal Chemistry 2020 conference will provide you with an exemplary research experience and huge ideas.

Medicinal chemistry and Drug Discovery is a stimulating field as it links many scientific disciplines and allows for collaboration with other scientists in researching and developing new drugs. Medicinal chemists apply their chemistry training to the process of synthesizing new pharmaceuticals. They also improve the processes by which existing pharmaceuticals are made. Medicinal chemists are focused on drug discovery and development and are concerned with the isolation of medicinal agents found in plants, as well as the creation of new synthetic drug compounds.

The perspective of the [Medicinal Chemistry](#) Conference is to set up for new research to help people understand how treatment techniques have advanced and how the field has developed in recent years. ConferenceSeries.com organizing Medicinal Chemistry Conference in 2019 in Singapore. We organize Medicinal Chemistry Meetings in the fields related to it like Synthetic Organic Chemistry and Pharmacology.

Target Audience for Medicinal Chemistry 2020: Eminent Scientists/ Research Professors in the field of Medicinal chemistry and Drug Delivery, Junior/Senior research fellows, Students, Directors of Pharmaceutical research companies, Chemical Engineers, Members of different physics and Chemistry associations.

Conference Series LLC LTD aims to provide a forum for international researchers from various areas of chemistry, pharmacy, Medicinal Chemistry and Drug Design to share latest cutting-edge research findings and results about all aspects of Medicinal Chemistry. Each session of the meeting will be included with expert lectures, poster and discussions in the field of Medicinal Chemistry, Pharmaceutical Sciences, Drug Delivery and Drug Development, Pharmaceutical Chemistry and overall applications.

[Medicinal Chemistry](#) and [Drug Design](#) are conducted all over to examine the etiological components of disease and causes for spreading and its preventative measures. This meeting gives the international platform for recent research on the uprising and re-rising diseases, communicable diseases, Non-communicable diseases. This meeting has the extent to be the source of the medical specialty variables like origin, spread and up to date status of different diseases and disorders causing deaths in several nations.

Medicinal Chemistry 2020 is an event intended to provide an exclusive platform to discuss and learn about Medicinal Chemistry, Drug Delivery and Drug Discovery. This event brings together the top professionals in the Medicinal chemistry and Drug Delivery field along with the highly affiliated professors to explore the advancements and latest applications achieved in the field of Pharmaceutical Sciences, Drug Development, CADD and Drug Delivery, Novel Drug Discovery and Drug Delivery, Bioorganic and Medicinal Chemistry, Pharmacology and toxicology, Anticancer agents, Analytical Chemistry, Pharmaceutical Industry, Organic Chemistry, Clinical Pharmacology, Evolution of Organic and Medicinal Chemistry in Pharmaceutical Science, Latest Developments in Alzheimer's Drugs, Organic and Medicinal Chemistry Technologies for Drug Discovery, Receptors and Inhibitors, Applications of Organic and Medicinal Chemistry in Drug Discovery and Anti Parkinson's Drugs.

[Medicinal Chemistry 2020](#) conference aims to provide a forum for international researchers from various areas of chemistry, pharmacy, Medicinal Chemistry and Drug Design to share latest cutting-edge research findings and results about all aspects of Medicinal Chemistry.
