**26th International Conference on Advanced Materials,
Nanotechnology and Engineering June 22-23, 2020**

We had a huge success with the completion of 26th International Conference on Advanced Materials, Nanotechnology and Engineering June 22-23, 2020. The significance of the meeting was achieved due to the accumulation of all the related group of spectators of research scientists to share their Knowledge, Research work, Technologies, and furthermore trade of worldwide Information towards the correct crowd at ideal time. Congress has received a generous response from all over the world. This has been organized with the aim of endorsing the development of new perceptions and ideas for investigating the high level of knowledge reached by scientific community in the field of Advanced Materials, Nanotechnology.

The conference was organized around the theme “Nanomedicine Research on Effective Treatment for COVID-19”. The congress entrenched a firm relation of future strategies in the field of Advanced Materials 2020.

We would like to thank each and every participant of Advanced Materials 2020 Conference to make this a huge success. And special thanks to media partners for the promotion of our event.

The Conference Series Advanced Materials Conferences aim to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Advanced Materials. It is conjointly a knowledge domain platform for researchers, practitioners and educators to gift and discuss the foremost recent advances, trends, and issues in addition as sensible challenges and solutions adopted in the fields of Advanced Materials. With the grand success Advanced Materials 2020, Conference Series LLC Ltd is proud to announce the 27th International Conference on Advanced Materials, Nanotechnology and Engineering Jan 11-12, 2021 Webinar. Advanced Materials 2020 has been prepared with the aim and the specific intent of promoting the development of new perspectives and ideas for exploiting the high level of knowledge achieved by the scientific community in various Advanced Materials fields.
