EDITORIAL NOTE

This is prideful and delectated to mention that during the year 2020, all the issues of volume 8 were published online well within the time but due to pandemic situation we were unable to dispatch the reprints. Therefore, we promulgated the article through social media accounts (twitter, LinkedIn) of the journal.

The articles published in Journal of Pure and Applied Physics have been cited numerous times by eminent researchers all around the world. All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, Chemical Abstracts Service (CAS), Open J Gate, Cosmos IF, Cite Factor and much other coverage. The Index Copernicus value of the journal is 77.95.

The journal is using Editorial Manager System for quality in review process. Editorial Manager is an online manuscript submission, review and tracking systems. Review processing is performed by the editorial board members of Journal of Pure and Applied Physics or outside experts; at least two independent reviewers approval followed by editor approval is required for acceptance of any citable manuscript. Authors may submit manuscripts and track their progress through the system, hopefully to publication. Reviewers can download manuscripts and submit their opinions to the editor. Editors can manage the whole submission/review/revise/publish process.

The visitor's traffic is the benchmark for the success of any scientific journal and the Journal of Pure and Applied Physics is constantly attracting viewers across the world.

According to the Google Analytics, more than readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on applied physics and to refer the published content for conceptualizing their research study, deriving research hypotheses, case reports and validating their contributions.

Readers from the major countries including United States, Japan, United Kingdom, India, Egypt and Nigeria visit our journal domain to learn about the ongoing research activities in this field. The promotion of the individual author contributions is taken care of and hence the authors enjoy the reputation among global audience.

During the calendar year 2020, JPAP received a number of papers out of which 48% were rejected in the preliminary screening and 20% were rejected during the peer review process. Around 32% articles has been processed and published online. A total of 50 research scientists from all over the world contributed as reviewer in the journal. The editors in the Editorial Board of the journal actively contributed with their valuable services throughout the year for the publication of articles.

I take this opportunity to acknowledge the contribution of the editors during the final editing of articles published and the support rendered by them in bringing out issues of JPAP in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JPAP, the office bearers for their support in bringing out yet another volume of JPAP and look forward to their unrelenting support to bring out the Volume 9 of JPAP in scheduled time.
