### Awards 2020

#### About Conference

Conference Series LLC Ltd invites all the participants across the globe to attend World Congress on Carbon and Advanced Energy Materials at Sydney, Australia in the course of March 16-17, 2020.

Theme of the Carbon materials conference, "[Carbon based materials for next generation](#)" is designed in such a way to uncover the basic principles that lead to the drastic emergence and technologies in the field of [carbon materials](#). We hope [Carbon Materials Conference 2020](#) is the best platform to discuss the basic principles involved in the development of [Carbon materials](#). As this conference deals with the basics concepts, students, delegates, academicians and business people can attend the Carbon material conference to root up the knowledge and excel in this field.

#### Expert Level (Scientific Service Achievement Award)

The Scientific Service Achievement Award for [Carbon Materials](#) Congress who have made an outstanding contribution in the field of Carbon and advanced Energy Materials. To honour outstanding technical contributions in Material science field within the scope of the Society and outstanding leadership in the Carbon materials field and it is the most prestigious award of the whole Carbon Materials conference and is tagged as scientific service Achievement award.

**Eligibility Criteria:** Scientific Service Achievement Award is the one should have minimum of 20+ years of experience in the relative field in public or private sector. The receiver of this Scientific Service Achievement Award should have a dedicated fascination in materials science and should take initiative in researching the recent new carbon, [graphene](#) and [Nano materials](#) and [nanotechnology](#) trends and developments towards the [Material science](#) subjects. You can nominate deserving of the award through online.

#### Professional Level (The Research Contribution Award)

The Research Contribution prize will be awarded to an academic for professional or academic research activity acquired in [Materials Science](#) research field in the public or private sector for experts having [carbon materials](#) research knowledge at 10+ years in the field of Materials Science with most relevant accomplishments. Part-time research experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate, even if a doctorate was never started or envisaged. You can nominate deserving of the award through online.

#### Scholar Level (The Upcoming Researcher Award)

he conference offers Scholar Level Award for the upcoming [Materials scientists](#), Materials science researchers and Carbon Materials experts having 10+ years research experience in the field of Materials Science. Our conference would like to provide best platform to expand your network by sharing your research knowledge at stage. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme: Carbon based [materials](#) for next generatTion of the conference along with 5 minutes panel discussions. You can nominate deserving of the award through online.

### **Women Scientist (The Women of Science Award)**

Women are an important section of the workforce, more particularly in the science & [technology](#). Now Our Conference series providing a great opportunities and a unique platform for women scientists for presenting latest research projects with an in-depth analysis. We cordially invite women scholars and scientists from Universities/ Industries to who have 10+ years of research experience to join the forum. We are happy to encourage our women scientist's participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. Women Scientist can nominate deserving of the award through online.

### **Outstanding speaker In Carbon Materials 2020**

This award recognizes especially meritorious research contributions by an individual in a specific area of [Carbon Material](#) projects, Strategies and schemes that have been implemented to improve long-term excellence in [Materials Science](#). This award seeks to recognise an individual or team who have demonstrated excellence when working to improve Material science sector. You can nominate deserving of the award through online

### **Best Keynote Speaker In Carbon Materials 2020**

We are looking for an outstanding Keynote Speaker and this award is recognizes for best Keynote speaker who will embraced new technologies and ways of working that have been implemented to improve long-term excellence in [Materials Science](#). If you were confirmed as keynote presenter from the program manager, you can nominate someone deserving of the award through online

### **Best Poster Presentation In Carbon Materials 2020**

This award invites applications for Students Poster Competition is organized at Conference, to encourage students and recent graduates to present their original research. All accepted abstracts will be presented at the poster sessions during the conference. Conference Series aims at setting a platform for all the budding scientists and researchers to present their real-time work and share their views and aspects related to the theme: [Carbon](#) based materials for next generation of the conference. You can nominate someone deserving of the award through online.

### **Outstanding Masters/Ph.D./Post Doctorate thesis work Presentation In Carbon Materials 2020**

Open to all Masters/Ph.D./Post Doctorate thesis work Presentation who will present their projects and thesis that have been implemented to improve long-term excellence in the field of [Materials Science](#). You can nominate deserving of the award through online. You can nominate someone deserving of the award through online.
