

## Awards Content on 35<sup>th</sup> World Congress on Materials Science and Nanotechnology

**Xianghai An**

ARC Discovery, Early Career Researcher, Robinson Fellow, School of Aerospace, Mechanical and Mechatronic Engineering, The University of Sydney, Australia, E-mail: xianghai.an@sydney.edu.au

### Awards 2020

#### **EXPERT LEVEL (SCIENTIFIC SERVICE ACHIEVEMENT AWARD)**

Our outstanding event 36<sup>th</sup> world congress on Materials science and Nano technology conference 2020 promote and specifies the scientific and technological achievements in Materials science and Nano technology research by taking into consideration that is independent of originality, his/her thought process and the way he/she made it possible. It is meant as the most prestigious scientific award of the solemn event tagged as a scientific service Achievement award. This award gift insightful respect to acknowledge those individuals who culture the scientific needs and demonstrate the current challenges with the technology and try to resolve them accordingly with 20+ years of experience in the Materials science and Nano technology sector.

This award is presented at the “36<sup>th</sup> world congress on [Materials science](#) and [Nano technology](#) conference 2020” Scientific Session in Tokyo, Japan during the award ceremony and also you can nominate the deserving of the award through online.

#### **PROFESSIONAL LEVEL (THE RESEARCH CONTRIBUTION AWARD)**

The Professional Level Award is given for huge of 10+ years experienced knowledge and a significant contribution to the research on [Materials science and Nano technology](#) field. The personal with part-time research would be also included and the award would go to the expert, who have understood the issues and made a significant move towards the solution. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged and you can nominate the deserving of the award through online.

#### **SCHOLAR LEVEL (THE UPCOMING RESEARCHER AWARD)**

The world congress on Materials science and Nano technology 2020 conference grants Scholar Level Award for the upcoming researchers and scientists, having 10+ years of study expertise in the field of Materials science and Nano technology. Our conference would like to be the best platform to grow your network and to encourage you enough by sharing your research knowledge at the stage. The presentation includes 25-30 minutes of oral talk on the experimental research topics based on the theme of the conference along with 5-7 minutes panel discussions. You can nominate the deserving of the award through online.

#### **WOMEN SCIENTIST (THE WOMEN OF SCIENCE AWARD)**

The conference highly motivates and encourages the female scientists to take part with their deep knowledge in Materials science and Nano technology and promote knowledge sharing by taking the opportunity to have them on stage.

The conference will witness The Women of science award in recognition of their scientific accomplishments in the award ceremony. Each scientist has a unique career path combining exceptional talent. This scientific field considers the award for those women, who dare to make some difference and go onwards to a specific discovery of Materials science and Nano technology world in her aim to promote and encourage other women throughout their scientific careers. You can nominate the deserving of the award through online.

### **OUTSTANDING SPEAKER IN MATERIALS SUMMIT 2020**

The conference will again delight to present the award for the personnel who will present their research projects, schemes and ideas to promote the growth of Materials science and Nano technology and the presentation should promise long term excellence in Quantum world for other scientists and inspiring minds. You can nominate the deserving of the award through online

### **BEST KEYNOTE SPEAKER IN MATERIALS SUMMIT 2020**

The right keynote speaker empowers the hall and adds something magical to the event that will make a way to inspire others mind and fate. Behind the fruitfulness of the conference, there is always a hand of a keynote speaker. So here we are happy to present a short Keynote Speaker award to encourage other for their best of mind and give a huge thank to the deserving one for extracting and adding something new to the conference so that everybody would inspire a little from him. If you are confirmed as a keynote speaker from the program manager, then you can nominate the deserving of the award through online

### **BEST POSTER PRESENTATION IN MATERIALS SUMMIT 2020**

Posters are a key medium to share the original knowledge and scientific research for a way ahead scientific career. Student Poster Competition is organized at world congress on Materials science and Nano technology 2020 conference, to encourage the aspiring minds of the students and recent graduates to create and present something new to their knowledge. All accepted abstracts will be presented at the poster sessions during the conference. Then the Best poster presentation in the conference award will witness an upcoming scientist. Conference series aims to showcase the real-time work papers of all the researchers and the professors and awake for their views and aspect related to the theme of the conference. You can nominate the deserving of the award online

### **OUTSTANDING MASTERS/Ph.D./POST DOCTORATE THESIS WORK PRESENTATION IN MATERIALS SUMMIT 2020.**

This award is promoted for Masters/Ph.D./Post Doctorate personnel for the thesis work Presentation which will present their vision including their passion for the quantum challenges and also the corresponding solutions that should be implemented to improve long-term excellence in Materials science and Nano technology research. You can nominate the deserving of the award online.
