

**Emerging Materials and Nanotechnology Congress scheduled on February 26-27, 2020 at London, UK****Abeer Abdullah Al Anazi**

Australian College of Kuwait, Kuwait, E-mail: a.alanazi@ack.edu.kw

**2020 Conference Announcement****About Conference**

By the great achievement of Emerging Materials Congress 2019, we take immense pleasure and privilege to announce and welcome you to join, submit your proposals for the "18<sup>th</sup> International Conference on [Emerging Materials and Nanotechnology](#)" (Emerging Materials Congress 2020) with exciting theme "*Modern breakthroughs in the field of Materials Science and Nanotechnology*" which is going to be held in **London, UK** during **February 26-27, 2020**.

Emerging Materials Congress provides best opportunity for delegates from various Institutes and Universities to interact with superlative scientists and Materials experts worldwide. This conference acts as a dais in linking Academicians and Industries to transform the innovative research works into products.

With the success of Emerging Materials Conference 2019, we are glad to announce our next upcoming conference Emerging Materials Conferences 2020 at **London, UK** on **February 26-27, 2020**. The conference will serve as a platform to bring together leading materials scientists with different specialties. The conference will discuss on the topics such as Materials Science and Engineering, Nanoscience and Nano Technology, [Emerging Materials](#) for Energy Storage, Advanced Materials, Biomaterials and Tissue Engineering, Advanced Energy Materials.

[Emerging Materials Conferences](#) 2020 is a unique event and platform for global scientists, researchers, directors, professors and engineers from the research areas of Materials Science, Nanotechnology, Chemistry and Physics to share their knowledge and research experiences with interactive panel discussion and sessions by Keynote Lectures, Oral Presentations, and Poster Presentation. The scientific sessions will comprise research areas of Advanced Materials, Polymer Science, [Materials Science](#), Nanotechnology, Tissue Engineering, Carbon Materials, Energy Materials, Biopolymers, 3D Printing, Ceramics, Conductive Materials, Electrical, Optical and Magnetic Materials, Materials Applications, etc.

Emerging Materials Congress 2020 supported by the organizing committee network of renowned scientific and professional expert such as [Abeer Abdullah Al Anazi](#), **Professor, Australian College of Kuwait (ACK), Kuwait**, it provided a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging technologies in Materials Science.

Europe accounted for 33% market share in global nanotechnology market revenue in 2015 after Americas region and is forecast to grow at a CAGR of 15.6% to reach \$3.98 billion by 2021. APAC region is projected to grow at a rate of 20.9% CAGR during the forecast period 2016-2021.

Emerging Materials Conferences going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... And Many More....!!!

**Julia Thomas**
